

KCIA AIRPORT ADVISORY

DATE: September 17, 2003

TO: King County International Airport Tenants
distributed by e-mail and fax

FROM: 
Robert I. Burke, AAE, Airport Director

SUBJECT: RWY 13R/31L Partial Closure – September 19, 2003 (FRIDAY)

The Airport has completed approximately 50% of the Taxiway Alpha Recabling Project. **Beginning this Friday and continuing again on Monday throughout next week**, the remainder of the project will require extensive work in the runway safety area. We do not anticipate any closures and/or restrictions on Saturday or Sunday, but you can expect **partial closures of Runway 13R/31L Monday through Thursday, September 22 - 25, 2003.**

September 19, 2003 (Friday)

The first **5500 feet of Runway 13R** will be closed and will have a **relocated threshold** from **08:30 - 12:30 (local time) and 13:30 - 17:30 (local time)**. Additionally, taxiway intersections **A4/B3** and **A7/B4** will be closed during those times. Straight-in ILS, straight-in localizer and straight-in localizer/DME approaches to Runway 13R will be **out of service** from 08:30 - 17:30. Please note, **between 12:30 - 13:30 full runway length will be available.**

Therefore...

- If 13R is active (south flow), there will be 4501 feet available for arrival and departure.
- If 31L is active (north flow), there will be 4501 feet available for departure and 3701 feet for arrival.

September 22 - 25, 2003 Monday through Thursday)

Daily closure schedules and work will be dependent on weather forecasts. A tentative schedule for the week will be distributed Friday evening.

Your continued cooperation is greatly appreciated as we work to improve the Taxiway Alpha lighting system during the good days of fall weather in our near future.

Please check NOTAMs for changes.
